

Mogobe Bess Belgium

What is the Mogobe Bess project?

The Mogobe BESS project is a first of a kind and reaffirms our standing as a leading renewable energy player in South Africa. We continue to see attractive growth opportunities in the market based on the need for growth in power generation, our strong position in the country and our strong and competent local team," says Scatec CEO Terje Pilskog.

Who owns Mogobe Bess?

Located near Kathu in the Northern Cape province, the 103-MW/412-MWh Mogobe BESS will be majority owned by Scatec with a 51% shareholding, while its partners -- Perpetua Mogobe (RF) (Pty) Ltd and the holding company of the Mogobe Local Community Trust, will have 46.5% and 2.5%, respectively.

Where is Bess located in Africa?

Replicating successes from our hybrid solar and battery storage projects at Kenhardt, we will proceed to construct one of Africa's first and largest standalone dispatchable BESS systems. The project is located near Kathu, Northern Cape, close to high power demand centres.

Is Mogobe a preferred bidder?

Mogobe is one of the first two projects with a secured Preferred Bidder status from Bid Window 1 of the country's battery storage programme to announce having reached commercial close this week. The two schemes represent a combined 180 MW/720 MWh.

Does Scatec own Mogobe & Perpetua?

Scatec will own 51% of the equity in the project with Perpetua Mogobe (RF) (Pty) Ltd owning 46.5% and a holding company of the Mogobe Local Community Trust 2.5%. Scatec will be the engineering, procurement, and construction (EPC) provider and provide operations & maintenance (O&M), as well as asset management (AM) services to the project.

Who financed the Bess project in South Africa?

The BESS will be financed by ZAR 2.7 billion of non-recourse project debt, with the Standard Bank of South Africa tapped as lead arranger, while the remainder will be covered by equity from the owners.

reached financial close for the Mogobe battery energy storage system ("BESS") facility totaling 103 MW / 412 MWh and is now making final preparations to start construction of the project.
