

Nant energy Suriname

What is the National Energy Company of Suriname?

Staatsolie is Suriname's national energy company. How does Suriname intend to exploit its oil and gas resources for the overall development of the country? It is important to note that thanks to Suriname's energy industry, various sectors can benefit and receive opportunities to develop.

How can Suriname benefit from the energy industry?

It is important to note that thanks to Suriname's energy industry, various sectors can benefit and receive opportunities to develop. For example, a recent energy conference was held with 800 participants from abroad and many of the hotels and restaurants were running at full capacity - a boon for the hospitality sector.

Can Suriname benefit from oil & gas use?

There is a major opportunity for Suriname to benefit economically in the world's final decades of oil and gas use. Oil is going to be around for a long time, but the issue is that we're producing about 100 million bopd worldwide and this is projected to decrease, depending on the forecasting institute, by 20 million-50 million bopd by 2070.

Who is Staatsolie Maatschappij Suriname?

Annand Jagesar, CEO of Staatsolie Maatschappij Suriname, talks to The Energy Year about Suriname's plans for growing its oil and gas sector while remaining a carbon-negative country and Staatsolie's key role and recent successes in these efforts. Staatsolie is Suriname's national energy company.
