Did array technologies buy STI Norland?

Image: Array Technologies US solar tracker supplier Array Technologies has completed its previously announced acquisition of Spanish tracker manufacturer Soluciones Técnicas Integrales Norland, S.L. (STI Norland). Array bought a 100% stake in STI for roughly US\$652 million (US\$401 million in cash and 13.9 million shares of Array common stock).

What does STI Norland stand for?

Image: Array Technologies US solar tracker supplier Array Technologies is to acquire Spanish tracker manufacturer Soluciones Técnicas Integrales Norland (STI Norland) in an acquisition that Array said will create "the largest tracker company in the world".

Will array buy STI Norland in Q1 2022?

Under the deal, Array will buy STI Norland for roughly EUR570 million (US\$652 million) in cash (EUR351 million/US\$401 million) and stock, with the transaction expected to close in Q1 2022. It comes at the same time as Array reported a larger than expected Q3 loss in its most recent financial results.

Where is STI Norland located?

Headquartered in Pamplona, Spain, STI Norland has leading positions in Iberia and Latin America, including the rapidly growing Brazilian solar market. STI Norland has completed or been awarded tracker systems for more than 400 projects globally, representing over 12 GW of generation capacity.

When does STI Norland close?

The transaction is expected to close in the first quarter of 2022. Javier Reclusa, the Chief Executive Officer of STI Norland, as well as the rest of the company's senior management team will remain with Array following the closing of the transaction and continue to lead STI Norland.
