

Does North Macedonia support solar?

North Macedonia is currently supporting large scale solar through a series of tenders. The most recent one was launched by the Ministry of Economy in July. Other solar tenders were previously held in the country by the state-owned electric company Elektrani na Severna Makedonija (ESM).

How will a new solar plant help Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: "The new solar plant will help the country, which faces severe air pollution from coal, to reduce its reliance on ageing coal-fired infrastructure. It will also generate cheap electricity in times of very high market prices.

Where in Macedonia is a solar park being built?

One of the two facilities has a capacity of 85 MW and is being planned by Renewable Power International in the municipality of Karbinci, in the eastern part of North Macedonia. The second solar park is planned to have a capacity of 70 MW and to be located in Pechevo, which is also in eastern North Macedonia. Its developer is Hek Solar MK.

How much does a solar project cost in North Macedonia?

Its developer is Hek Solar MK. The government said the first project is expected to require an investment of EUR63 million and the second around EUR53 million, without disclosing further details. North Macedonia is currently supporting large scale solar through a series of tenders. The most recent one was launched by the Ministry of Economy in July.

Who built the first solar plant in North Macedonia?

The 10MW solar plant, built on the site of the spent Oslomej lignite coal mine, was constructed by the public company JSC Elektrani na Severna Makedonija (ESM). This is the company's first solar plant in North Macedonia, developed with a view to diversifying energy sources and supporting decarbonisation.

Why is EBRD launching a solar PV plant in North Macedonia?

Andi Aranitasi, EBRD Head of North Macedonia, said: "This is a very important project for the country's energy transition. It is a continuation of our previous work in backing the ambitious decarbonisation plans of North Macedonia by organising solar PV tenders and constructing the first-ever utility scale solar PV plant in the country.

Decarbonisation plans in North Macedonia are taking a big leap forward. The European Union (EU) is supporting ESM, the state-owned electricity company, to implement a 30 MW photovoltaic (PV) project consisting of 10 ...
