OQGN to explore H2, CO2 networks. Oct 24: Building on its vision to support the development of low-carbon energy infrastructure in Oman, OQ Gas Networks (OQGN) - the newly listed gas transportation company - has announced the signing of a Memorandum of Understanding (MoU) with Belgian-based energy infrastructure group Fluxys to explore ...

By Vinod Nair -- MUSCAT: March 25 - The Earth Hour was observed in countries across the world, including Oman, on Saturday. All major commercial and public establishments in the capital took part the programme with Environment Society of Oman (ESO), Ministry of Environment and Climate Affairs (MECA) and several commercial establishments ...

o Australian-Made Energy Storage Solutions RedEarth has a range of Australian-made, on-grid, off-grid, and hybrid energy storage systems suitable for residential and commercial operations. Plus, our energy storage systems are scalable, so you can be...

DOE's Office of International Affairs partnered with Oman's Ministry of Energy and Mineral Resources (MEM) to convene a U.S.-Oman Technical Workshop on Geologic Hydrogen on September 24 in Muscat, Oman.

Musandam is an exclave of Oman, separated from the rest of the country by the United Arab Emirates. Its location gives Oman partial control, shared with Iran, of the strategic strait. This image, captured by the Advanced Spaceborne Thermal Emission and Reflection Radiometer ASTER on NASA's Terra satellite on March 27, 2004, shows the western ...

More than 200 scientists from 25 countries organized by the Austrian Space Forum spent a month in isolation on a simulated "red planet" in the cinnamon-coloured dunes in the Dhofar desert. For them, the desert, where temperatures reach 51 degrees Celsius, was the most realistic place on Earth, which is as uninviting as the landscape of Mars.

Oman has significant potential to channel its deep expertise in the production of fossil fuels towards clean energy projects that could accelerate the country's efforts to lower its emissions and diversify its economy, ...

An international consortium comprised of OQ, the Sultanate of Oman's global integrated energy company, InterContinental Energy, the leading dedicated green fuels developer, and EnerTech, a Kuwait government-backed ...

Geothermal is derived from the Greek: "geo" means earth and "thermal" means heat, and it can be interpreted as geothermal heat or energy produced from the earth. There are 53 boreholes in Oman with temperatures greater than 100°C, which can be used for electricity generation by way of a binary geothermal energy power plant.
