What discounts do we get on our electricity bills in Panama?

Retirees in Panama receive two important discounts on their electricity bills. The first discount is the Government Electric Subsidy, which amounts to approximately \$16.00 per month. The second discount is a 25 percent reduction.

How much does electricity cost in Panama?

Electricity in Panama has 3 rates, depending upon your use. If you use less than 300 kWh, your rate is subsidized. Which is how some people have monthly electricity bills of only \$4. If you use between 300- 750 kWh, you pay at a higher rate. If you use more than 750kWh, you pay at the highest rate.

Why is a US company building a solar panel factory in Panama?

July 26 (Reuters) - A small U.S. solar company with no manufacturing experience on Tuesday announced plans to open a solar panel factory in Panama to help the American industry reduce its reliance on Chinese-made goods.

Why is Panama so attractive to investors?

Image: Avanzalia Among the Central American states, Panama has become very attractive to investors, not only because it boasts a stable government and uses the US dollar as its currency, but also due to the government now deploying a range of fiscal incentives to support PV, including an exemption on import taxes.

Where are solar panels made?

Though solar panels are assembled in several Asian countries, the industry's raw material, polysilicon, is primarily produced in China and has been tied to concerns about forced labor in the Xinjiang region.
