

# Perpetum energy Hungary

What does perpetum energy do?

At PerPetum Energy, we offer comprehensive electrical decarbonization solutions. By integrating photovoltaic energy, wind power, energy storage, and EV charging solutions, we help our clients--ranging from industrial consumers and developers to public entities--exceed their CO2 reduction targets.

Who is perpetum energy BVBA?

Perpetum Energy BVBA provides alternate energy solutions. The Company designs, manufactures, and installs solar power panels to produce energy. Perpetum Energy conducts business in Western Europe and the Mediterranean.

Where is perpetum Energy headquartered?

PerPetum Energy is headquartered in Eke Nazareth, Belgium. What is the size of PerPetum Energy? PerPetum Energy has 39 total employees. What industry is PerPetum Energy in? PerPetum Energy's primary industry is Energy Infrastructure. Is PerPetum Energy a private or public company? PerPetum Energy is a Private company.

Can perpetum energy provide an a-to-Z decarbonization solution?

We will be happy to provide you with an A-to-Z decarbonization solution, and a simple EPC offer for your renewable energy project. Since 2007, Perpetum Energy has acted as an EPC contractor for large-scale solar PV installations with extensive experience with all types of surfaces (roofs, ground, parking areas, water bodies, etc.).

How much money does perpetum energy make?

The current revenue for PerPetum Energy is 000000. Who are PerPetum Energy's investors? Pioneer Point Partners has invested in PerPetum Energy.

What is perpetum energy's sand & gravel installation?

The installation, with a capacity of 1.2 MWp, was built on the site of a sand and gravel extraction company (Netterden Zand & Grind). With the construction of the installation, half of the annual energy consumed will be generated sustainably on-site, fully in line with Perpetum Energy's vision.

Le 12 décembre 2023 marque la mise en service de l'installation photovoltaïque de Marche-Les-Dames, propriété du groupe Lhoist composée de 6.831 panneaux et d'une superficie d'environ 4,4 hectares, ce parc produira 4.700 MWh par an (l'équivalent de la consommation de 2.300 ménages wallons). Environ 80% de l'énergie produite par le parc sera ...

Perpetum Energy is a family owned company and one of the fastest growing companies specialized in the development, construction and exploitation of renewable energy projects with a main focus on tailor made

solutions for industrial consumers. It has its main activities in the BeNeLux, France and Romania. During the last fifteen years it ...

Founded in 2007, the Company provides behind-the-meter electricity generation solutions for its customers. PerPetum has installed over 500MW of PV capacity since inception and will have over 200MW operational and owned on balance ...

PerPetum realized a carport with charging stations and a ground setup on the meadow for AZ Zeno. For the carport, a choice was made for maximum aesthetic integration with the existing hospital in terms of color and shape. ... Ceci n'est pas un parking ("This is not a parking lot"), it is a floating field of renewable energy, powered by the ...

In October 2023, Pioneer acquired a majority stake in PerPetum Europe N.V., a leading Belgium-based company that develops, constructs, owns and operates energy decarbonisation projects for Commercial and Industrial customers. ...

Perpetum Energy en partenariat avec Q-Energy, Solutions30 Group et Ciel& Terre International est fier de contribuer à la construction de la plus grande installation flottante d'Europe. Cette installation sera construite sur le site d'anciennes gravières appartenant aux Etablissements Blandin situés en France, dans le département de la ...

At EU level, the share of renewable energy in energy consumption increased steadily from 9.6 % in 2004 to 22.1 % in 2020, thus exceeding the EU target of 20 % renewables by 2020. The increased share of renewables in 2020 was partly prompted by the decrease in the consumption of fossil fuel brought about by the COVID-19 pandemic.

PerPetum Energy is constructing a customized solar carport with white round columns & full black solar panels where esthetics and technical engineering go hand in hand. Power: 1114 kWp; 24 charging points are installed; We execute our construction site in 2 phases so that disruptions on our parking lot are kept to a minimum.

Perpetum Energy is ISO 9001:2015 and ISO 14001:2015 certified. What we do. We focus on electrical decarbonization solutions. We seamlessly integrate renewable energy (PV, wind), storage solutions and e-mobility solutions. We ...

At the electrical level, we have connected 70 kilovolts to the plant, which is a first for Perpetum. And the large 43 megawatt transformer with the 22, 000 volt distribution cabinet are really impressive and quite unique installations in a photovoltaic project in Belgium. ... This project is totally in line with PerPetum Energy's mission: to ...

Perpetum Energy biedt end-to-end elektrische decarbonisatie-oplossingen voor grootverbruikers, via een

slimme combinatie van fotovoltaïsche energie, windenergie, EV-mobiliteitsoplossingen, energieopslag, flexibiliseringsdiensten en Power Purchase Agreements. De projecten kunnen zowel on-site als off-site worden uitgevoerd en kunnen via directe ...

Perpetum is a fast growing company. So a new workplace is on the agenda. It was therefore decided to team up (of "join forces") with the renowned Ghent architectural firm, CAAN, to design and build the new offices.

The installation, with a capacity of 1.2 MWp, was built on the site of a sand and gravel extraction company (Netterden Zand & Grind). With the construction of the installation, half of the annual energy consumed will be generated sustainably on-site, fully in ...

Developing unused surfaces with green energy. As a result of a collaboration between Enovos, ArcelorMittal and Perpetum, this challenging floating solar project was commissioned in 2020 on an industrial lake. It's a good example ...

Daarnaast is Perpetum Energy iSO 9001:2015 en ISO 14001:2015 gecertificeerd. Wat we doen. Wij richten ons op elektrische decarbonisatie-oplossingen. Wij integreren naadloos hernieuwbare energie (PV, wind), opslagoplossingen en e-mobiliteitsoplossingen. Wij bieden toegevoegde waarde in elke stap van de waardeketen voor hernieuwbare energie.

Perpetum Energy Start-up/Scale-up Perpetum Energy 5656 AG Eindhoven T: +31 (0)40 808 11 95 E: services@perpetum . Location: High Tech Campus 69 Visit Website. PerPetum challenges the existing bigger companies. Our aim is to deliver a better cost/quality ratio. This is possible due to a well adjusted structure with lower overhead and quick ...

One of the largest solar carports in the world. This project, which is one of the world's largest solar carports, was built in record time and is based on an innovative, breakthrough construction ...
