

Photovoltaic bracket sales scam exposed

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

Are solar panels a scam?

One of the first signs of a potential scam is unsolicited approaches or door-to-door sales. A reputable solar panel company does not typically use these tactics and instead is more likely to rely on referrals or marketing campaigns. As we mentioned before, another red flag is excessive discounts or too-good-to-be-true offers.

Did a company defraud solar panel owners?

A company which defrauded solar panel owners by selling them goods and services they did not need has been ordered to pay back its victims hundreds of thousands of pounds.

How much money has been seized from a fraudulent solar panel scheme?

Two men who scammed millions of pounds from 760 vulnerable victims in a fraudulent solar panel scheme have today been ordered to pay confiscation totalling £413,206.10.

Are solar panels being targeted by fraudsters using feed-in tariffs?

Households that have already installed solar panels are also being targeted by fraudsters using publicly available information from feed-in tariffs, warned Dr Tim Jones, of Cornwall-based charity Community Energy Plus.

What are energy scams?

Energy scams involve people pretending to be energy companies or regulators to get your money or personal information. These scammers may pretend to be your energy company, say they're from Ofgem or even from Energy Saving Trust to try and gain your trust.
