Do I need a Dno to install a solar PV system?

If you live in a listed building, conservation area or national park, there may be additional restrictions. If you're planning to install a solar PV system in your home, you must register it with your Distribution Network Operator (DNO). The DNO is the company responsible for bringing electricity to your home.

How do I register a solar PV system?

If you're planning to install a solar PV system in your home, you must register it with your Distribution Network Operator (DNO). The DNO is the company responsible for bringing electricity to your home. Usually, your installer will register the device for you.

How much does a solar panel system cost?

Solar electricity is low carbon, renewable energy. A typical home solar panel system could save around one tonne of carbon per year, depending on where you live in the UK. That's the equivalent of driving 3,600 miles, or from London to Bristol 30 times. The average domestic solar panel system is 3.5kWp and costs around £7,000.

Do solar panels add value to a house?

Boosting your rating from F to C, for example, can increase the value of your home by up to 15%. Our Energy Experts also found that installing 10 solar panels can increase your EPC rating by 1 band. For a 3-bedroom semi detached house, installing 10 solar panels would cost approximately £6,300. But they could add much more value than they cost.

How long does it take to install a solar panel?

Start your solar journey today and receive a call back for a remote survey within three working days. Once the remote survey is completed, you can have your solar panel system fitted within as little as four weeks. Do I need planning permission?

How much can you save with solar panels?

How much you can save on your energy bills with solar panels depends on a few factors, including: the size of your solar panel system, the amount of energy your household normally uses, and the cost of electricity in your area. As sunlight is a free resource, a typical solar panel system can save you around 50-70% on your electricity bills.
