

Photovoltaic panels are not enough to cover

Should I Cover my solar panels when not in use?

Typically, it is not recommended to cover your solar panels when not in use. However, homeowners may want to cover them if their home is going to be vacant for an extended period of time. Of course, it all depends on how long you plan to not use your panels.

How to choose a solar panel cover?

Fit: solar panel covers should fit snugly around your solar panel. If it's too loose then it could blow off in strong winds and if it's too tight then it could crack the solar panel. Transparency: solar panel covers should be transparent so that they don't block out the sun. After all, that's what solar panels need to work!

Should you cover solar panels in the winter?

If you do decide to cover your solar panels in the winter, then make sure that you remove the covers when the weather warms up. You don't want to trap heat underneath the covers and damage your solar panels. Should You Cover Your Solar Panels When Transporting Them?

Should you cover solar panels when moving?

If you're going to be moving your solar panels...maybe because you're selling your home or just want to take them with you when you move...then it's a good idea to cover them. Any blanket, rug, or tarp you'd use to move other household appliances, electronic, or furniture should work fine. What Should You Look For In A Solar Panel Cover?

Should I Cover my solar panels with plexiglass or tempered glass?

Some people have opted to cover their solar panels with plexiglass or tempered glass ...but this is a bit overkill for the vast majority of solar consumers. Solar panels are a great way to produce renewable energy and save money on your electric bill, but it's important to know when and how to cover them.

Does insurance cover solar panels?

Most solar panels are designed to withstand stormy weather such as heavy snow, hail, and wind. In fact, most solar panel manufacturers offer a warranty that covers damage due to weather. Additionally, most home-owner insurance policies will also cover solar panels attached to your home.
