

Photovoltaic panels installed on roof canopy

Can I use a canopy with a solar panel?

Canopies are the perfect base for solar panels, allowing you to generate energy and provide shade and shelter at the same time. We have four canopy frames which can be paired with most solar panels. We will work with your solar panel provider to select the most suitable canopy for the panels.

Should you install solar panels on your roof?

If you are unable to install solar panels onto your roof due to the direction of the building, or if shading is a problem, solar canopies are the perfect solution. They can be positioned specifically to enable you to soak up maximum solar energy for a greater saving on your energy bills.

Does a solar canopy pay for itself?

Your solar canopy will pay for itself over the years through the electricity the solar panels generate. Also, with energy bills increasing, the savings you will make on your bills will be greater than before, so now is the perfect time to invest in solar canopy or solar canopy.

What is a freestanding solar canopy?

It is a robust freestanding solar canopy that is supplied with a corrugated steel roof and is supported by a strong steel frame. We can supply and install the full solar canopy system including panels, or we can supply and install the canopy system without panels, ready for your own solar panel supplier to install; this is project dependant.

What are solar carports & solar canopies?

Solar carports and solar canopies are increasingly popular in the UK due to their efficiency and dual functionality. The tilted roof design offers natural drainage for rainwater, which is then collected by guttering and channelled away. Electricity generated by the carports' solar panels is then immediately available to be used onsite.

Can KaraSolar install a solar carport & canopies?

KaraSolar Ltd can supply and install a fantastic range of solar PV carports & canopies. With energy costs constantly on the rise, solar panels for both domestic and commercial use have become an increasingly attractive option. Now your car park can offer all the benefits of solar.
