Price of solar system inia Saint Lucia

The Caribbean Island of St. Lucia is known for its beautiful beaches, lush rainforests, and colorful coral reefs. But for some of the almost 200,000 people that live on the island, another incredible resource is affecting their daily lives -- the nearly 15,000 solar panels that are producing clean, reliable, electricity from the island's first utility-scale solar farm.

The \$20M solar farm is historic for Saint Lucia as it will be the first utility-scale renewable energy project on the island. It will be funded, owned and operated by LUCELEC. When completed in April 2018, it will have about 15 thousand panels and will generate 7 million kWhs (or units) of electricity per year.

The customer consumes from the power grid any deficit of energy that the system does not produce. Typical system prices and monthly energy production for 1 kWp, in Saint Lucia, range from US\$3000 to US\$4500 and around 125kWh. Prices for solar PV systems are constantly dropping. Note: PV system sizes are given in kWp, i.e. kilowatt peak. This ...
