1. Preliminary remarks. Against the background of an increasing number of grid connection applications by reference to the available grid capacity, the National Energy Regulatory Authority ("ANRE") has finally adopted, after two rounds of public consultations involving a large number of market players, significant changes to the grid connection rules ...

These two projects have played a significant role in de-risking the introduction of smart grid and smart metering into Romania, to achieve the Electrica's target of 1.3M meters deployed by 2029. The Future. Communications and security, ...

As a result, the 5GDN@Smart Grid White Paper II was drafted, which is an extension of the 5GDN white paper series and builds on 5GDN@Smart Grid White Paper I. The 5GDN@Smart Grid White Paper II is the industry's first white paper to propose the idea of constructing private WANs for specific verticals. By drawing on the best practices of 5GDN ...

It all started out that I need to control my heating due to the new huge variations in price. In the manual for my air-to-water heat pump CTC i350 I found that it have an internal interface, two ports, that can be controlled via two simple switches. So now I need some automation to control this... ? Thanks to @EdwardTFN and @ondras12345 I have a solution ...

The Carpathian Modernised Energy Network (CARMEN) smart grid project is up for funding from the Connecting Europe Facility programme. The project, led by Romanian electricity and gas distribution operator Delgaz Grid and the transmission operator CNTEE Transelectrica in partnership with the Hungarian TSO Magyar Villamosenergia-ipari &#193;tvteli ...

CTC s&#228;ger i sin marknadsf&#246;ring att deras system har alla funktioner som beh&#246;vs f&#246;r att kunna styra elf&#246;rbrukningen f&#246;r uppv&#228;rmning med h&#228;nsyn till aktuellt elpris varf&#246;r jag kompletterat utrustningen med en CTC EcoAir 610M luftvattenpump f&#246;r ca 1 &#229;r sedan. ... men CTC"s s&#229; kallade "Smart Elprisstyrning / SmartGrid" &#228;r ...

Delgaz Grid, a subsidiary of E.ON in Romania, is delivering smart meters to 22 communes in Neamt county in the Moldavia region in the country"s northeast. ... Smart Energy International is the leading authority on the smart meter, smart grid and smart energy markets, providing up-to-the-minute global news, incisive comment and professional ...

Romania"s investment. Prime minister of Romania Nicolae-Ionel Ciuc? stated on the announcement: "Today we signed the first financing contracts from the Modernisation Fund, opening the most important line of European funds intended for the development of the Romanian energy sector.

The smart grid is the state-&#173;-of-&#173;-the-&#173;-art technology for electrical system that can sensibly execute the operations to all interconnected elements -&#173;- from generator to consumers. Smart grid simply converts the conventional power grid towards the modern grid in order to regulate sustainable, economic and reliable electricity (Massoud & Wollenberg, 2005 and Gellings, 2009).

Project CARMEN, with a value of approximately EUR120 million (\$119 million) over the period 2023-2026, is aimed at the development of a smart grid with the modernisation and digitalisation of the transmission and ...

Networked Energy Services Corporation (NES), a global smart grid solution provider with the industry"s leading Energy Applications Platform (EAP TM), announced today that Electrica"s SDEE Muntenia Nord, will install ...

Networked Energy Services Corporation (), a global smart grid solution provider with the industry"s leading Energy Applications Platform (EAP TM), has announced that Electrica"s SDEE Muntenia Nord has exercised an additional option to purchase and install an additional 32,000 NES smart meters and associated data concentrators and software associated with the ...

Proiectul smart grid va conecta ?i mai bine re?ele din Ungaria, Rom&#226;nia ?i Republica Moldova ?i, printre altele, va permite o integrare mai mare a produc?torilor din surse ...

Project CARMEN: Joint Romania-Hungary Smart Grid 09 Sep 2022 by smart-energy The Carpathian Modernised Energy Network (CARMEN) smart grid project is up for funding from the Connecting Europe Facility programme. Image: Delgaz Grid. The project, led by Romanian electricity and gas distribution operator Delgaz Grid and the transmission ...

Nov. 24--BUCHAREST -- The European Commission approved Romania"s first cross-border smart grid

project, developed in partnership by Delgaz Grid SA, the electricity and natural gas distribution company, part of the E.ON group, CNTEE Transelectrica SA, the Romanian Transmission and System Operator, and MAVIR, the Hungarian transmission operator, ...

Astăzi, 7 octombrie 2021, Președintele Directoratului CNTEE Transelectrica SA, Bogdan Toncescu, și Directorul General al Delgaz Grid SA, compania de distribuție de energie electrică și gaze naturale parte a grupului german E.ON, Dragoș Bărbulescu, au semnat, în prezența echipelor de proiect, Acordul de Parteneriat pentru implementarea proiectului Carpathian ...

Proiectul smart grid va conecta și mai bine rețelele din Ungaria, România și Republica Moldova și, printre altele, va permite o integrare mai mare a producătorilor din surse regenerabile. Proiectul CARMEN (Carpathian Modernized Energy Network) apare pe ultima listă PCI a Comisiei Europene, potrivit datelor comunicate de Executivul Comunitar.

The partnership involves the development of the first Smart Grid PCI in Romania with cross-border impact, which will bring numerous benefits at the level of the entire Eastern-European region (Republic of Moldova, Ukraine, ...

The European Commission has approved Romania's first cross-border smart grid project, developed in partnership by Delgaz Grid SA, the electricity and natural gas distribution company, part of the E.ON group, CNTEE Transelectrica SA, the national transmission system operator, and MAVIR, the Hungarian transmission operator, ...

Concurrent Technologies Corporation (CTC) offers an integrated team of diverse disciplines proficient at developing a customized power and energy plan to meet our clients' needs. Our core focus spans energy efficiency, energy/utility grid security, energy sustainability, and strategies, assessments and audits. Our registered Energy Professionals are ready to provide relevant ...

The share of renewable energy is increasing in Romania. In 2020, in total renewable energy production amounted to 16% and the share is expected to increase to 35% by 2030. ... Smart Energy International is the leading authority on the smart meter, smart grid and smart energy markets, providing up-to-the-minute global news, incisive comment and ...

In 2007, it began constructing digital substations; a year later, it piloted medium-voltage closed-loop control technology and deployed its power outage management system. By phasing in these smart grid technologies, CEM has improved the stability and quality of the city's power supply, enabling it to achieve globally leading metrics.

Romania's Delgaz Grid to install another 11,000 smart meters Project CARMEN: joint Romania-Hungary smart grid We don't know what the future of the grid looks like... yet. The enhancements will also enable more intermittent renewable energy to be connected to the grid, supporting Romania's 2030 renewable energy

target.

Har inte satt igång smartgrid-funktionen med min nya CTC-pump & nnu s; jag kan inte kommentera hur det funkar, men jag har sett att de uppdaterat funktionen ganska nyligen. Kanske d&rf&r supporten har noll koll p; hur det fungerar. Jag tror nog att de kommer f&rb&ttra detta fram&ver. Hade jag varit du hade jag k&rt med fasta gr&nsar ...
