

Ross solar group U S Outlying Islands

The US Minor Outlying Islands are a chain of islands that are US overseas territories. As such, it is counted as the US for country streak purposes. The guide will be somewhat skewed towards the Midway Atoll, as that is the only island with pinpointable coverage.

The New Zealand outlying islands are nine offshore island groups that are part of New Zealand, with all but Solander Islands lying beyond the 12nm limit of the mainland's territorial waters. Although considered integral parts of New Zealand, seven of the nine island groups are not part of any administrative region or district, but are instead each designated as an Area Outside ...
