

A rumoured plan from the Department for Environment, Food and Rural Affairs to dramatically restrict solar panels on farmland in the UK will not help food security - which is threatened far more by climate change - let ...

How much funding is available? Grants range from £15,000 to £100,000. The £10,000 minimum funding is equivalent to 25% of a £60,000 system (roughly a 40kW array with some battery storage).

This includes (but is not limited to), solar panels, wind farms, hydro power, rural heat networks, electric vehicle charging points, car clubs and fuel poverty alleviation schemes.

The bar graph compares the costs and savings of solar panels against traditional grid energy over time. The x-axis represents time periods of 5, 10, and 20 years, while the y-axis shows costs ...
