What is SMA Sunny Boy smart energy?

The SMA Sunny Boy Smart Energy single-phase hybrid inverter is the two-in-one solution for the generation and flexible use of solar power at home. The Sunny Boy Smart Energy is the ideal gateway to an all-round energy transition in the home. As a PV and battery inverter in one, it ensures a reliable and sustainable supply of energy.

What is a Sunny Boy smart energy inverter?

This 1-phase 2-in-1 inverter enables both immediate energy use and energy storage in a single device, with integrated Secure Power Supply and an additional back-up option\*. The Sunny Boy Smart Energy shines with its fast battery charging capability.

How good is Sunny Boy smart energy?

The Sunny Boy Smart Energy manages to do this extremely well: By the end of March, I already had a daily self-sufficiency rate of 70% to 90%. Obviously on dark November days or when snow is covering the modules, practically no electricity will be generated.

When will Sunny Boy smart energy be available?

The market introduction of the Sunny Boy Smart Energy is planned for Q1/2024. It will be available in Germany, Benelux, Spain and Italy depending on country-specific certification. Australia, as well as further European countries will follow in 2024.

Can Sunny Boy smart energy be combined with SMA EV charger?

Yes, the Sunny Boy Smart Energy can be combined with the SMA EV Charger via the Sunny Home Manager 2.0. What is the duration of the warranty for the Sunny Boy Smart Energy?

Does Sunny Boy smart energy have a surge protection device?

The three integrated MPP trackers also allow configurations like this with the Sunny Boy Smart Energy. A Surge protection device can be optionally connected on the DC side. They are offered as type 1+2 and type 2 as accessories from 3rd party companies. Can I operate multiple Sunny Boy Smart Energy devices in a single system?
