

Currently, approximately 20% of St Helena's energy comes from wind power, with the remaining 80% from diesel. Increasing the use of diesel and increasing the use of natural sources of energy benefits St Helena's economy and reduces our dependency on imports. The first phase of the solar farm will increase renewable energy capacity on the ...

As the renewable energy industry continues to grow rapidly worldwide, Vermeer equips you with specialized equipment and support solutions -- including an extensive dealer network -- for ...

St Helena Government, in partnership with Connect Saint Helena Ltd, released a Request for Proposals to commission a renewable energy project for the Island in June 2017. SHG and Connect Saint Helena Ltd are today pleased to report that the procurement process is progressing well, with a number of firms bidding to help the Island meet the aims ...

The projects are part of Thailand's ambitious renewable energy feed-in-tariff programme, aimed at doubling its installed wind and solar capacity by 2030 and progressing the country towards its renewable energy targets. The move aligns with Thailand's goal to boost its renewable energy output to 50% by 2037.

St. Helena is a British Overseas Territory in the South Atlantic Ocean with a population of around 5,000. Most electricity is generated through thermal engines, although small wind and solar farms (Figure 1) are used to augment these, currently contributing ...

SHG and Connect Saint Helena Ltd are today pleased to announce that PASH, based in the UK, has been chosen as the preferred bidder to provide their renewable energy solution to St Helena. Subject to concluding negotiations, it is envisaged that a contract will be signed soon. The project will result in the majority of [...]

A bid for the "Greening the Islands" award by the St Helena Government (SHG), Connect Saint Helena Ltd and Enterprise St Helena (ESH), recognising the work to create a 100% renewable energy system, has been commended by the "Greening the Islands" network, an organisation linking islands across the globe to share experience and to establish [...]

The PPA aligns with the islands' goal of increasing renewable energy production and lowering its reliance on imported fuels. Saint Helena also aims to become self-sufficient in 10 years through the use of renewables. You can subscribe to our M& A newsletter [here](#)

An Energy Strategy for St Helena was endorsed by the Environment & Natural Resources Committee at their meeting on Thursday 20 October 2016. The strategy has been developed for St Helena with the primary aim to

increase the Island's use of renewable energy, through a mixed model of harvesting natural resources, as well as supporting [...]
