Map of the exclusive economic zone of Saint Pierre and Miquelon. France claimed a 200-nautical-mile (370 km; 230 mi) exclusive economic zone for Saint-Pierre and Miquelon, and in August 1983 the naval ship Lieutenant de vaisseau Le Hénaff and the seismic ship Lucien Beaufort were sent to explore for oil in the disputed zone. [40] In addition to the potential oil reserves, cod ...

The market for battery energy storage is estimated to grow to \$10.84bn in 2026. The fall in battery technology prices and the increasing need for grid stability are just two reasons GlobalData have predicted for this growth, with the integration of renewable power holding significant sway over the power market.

According to data from Future Power Technology's parent company, GlobalData, solar photovoltaic (PV) and wind power will account for half of all global power generation by 2035, and the inherent variability of renewable power generation requires storage systems to balance the supply and demand of the power grid. This considered, countries ...
