

Can you sell solar energy back to the National Grid?

Householders and businesses with solar panels installed, who generate more renewable electricity than they need, can sell energy back to the National Grid under the Smart Export Guarantee (SEG). An increasing number of people are now benefiting from this government-backed initiative, and you could be one of them.

How can a home owner make money from selling solar energy?

Earn money: Homeowners can earn money by selling back electricity to the grid in the UK through programs like the Smart Export Guarantee (SEG). **Reduced carbon emissions:** Selling excess solar energy back to the grid can help reduce the need for fossil fuels and decrease carbon emissions.

Can you sell off excess solar energy?

One way is to install new rooftop solar panels. Doing so, from the 1st of January 2020, means you will be able to sell off any excess renewable energy. The new initiative to provide guaranteed payments comes from Smart Export Guarantee (SEG). They will enforce a legal obligation for most energy suppliers to bid for electricity.

How do I sell excess electricity generated by my solar PV system?

To sell excess electricity generated by your solar PV system, you need to apply directly to a licensed SEG tariff supplier. Your SEG licensee doesn't have to be your current top-up electricity supplier. You can choose different companies for SEG payments, electricity supply, and gas supply.

How can I earn from selling electricity back to the grid?

The best way to earn through selling electricity back to the grid in the UK is by using the Smart Export Guarantee scheme. Since January 2020, the Smart Export Guarantee scheme has offered small-scale low-carbon energy generators an opportunity to sell solar energy to the grid in the UK.

How much will I be paid if I sell solar power?

The amount you'll be paid for selling solar power back to the National Grid through the Smart Export Guarantee will vary depending on the tariff you choose. It could be between 1p/kWh to 24p/kWh - the best rate available at the time of writing. Rates do change, though, so it's always worth looking at the latest tariffs.
