

Sierra Leone bord gais energy solar panels

Does Sierra Leone have a weak electricity grid?

Sierra Leone's grid only provides 13 megawatts per million people, about 3.5 times less than nations with similar socio-economic conditions. The weak electrical grid forces many citizens to purchase expensive oil and gas, and electric power remains scarce. New central solar power initiatives will help solve this problem.

Can solar power boost economic growth in Sierra Leone?

Solar power has the potential to greatly increase energy access in Sierra Leone and accelerate its economic growth. Both internationally financed central power systems like Solar Park Freetown and private solar setups in rural areas will create jobs and provide a stable source of energy for millions.

Who is Bord Gáis Energy?

Bord Gáis Energy has the technical and engineering capacity to deliver a high-class solar power system for farms and businesses. Our team members are all experts in their fields and will oversee the survey, design, installation, care and maintenance of your solar system. This comprehensive renewables offering includes:

Does Sierra Leone have a solar energy resource?

Ministry of Finance The Government of Sierra Leone (GoSL) recognises that the country is endowed with a significant solar energy resource. This potential however remains largely untapped.

Why do Sierra Leoneans need solar power?

For the 97 percent of rural Sierra Leoneans who lack access to the grid, individual solar home systems and decentralized generators can provide crucial electric power for a multitude of purposes. In town centers, street lamps run on solar power, and solar radios help citizens communicate and learn about current events.

What will GOSL do for Sierra Leone?

GOSL will remove barriers hampering the effective development, implementation and dissemination of renewable energy technologies. Also, the draft Energy Policy estimates that Solar PV generation capacity in Sierra Leone is expected to start at 31 MW in 2020 and increase to 156 MW by 2023.
