

Singapore integrated energy solutions

Can integrated energy solutions be used to power data centres?

SP, CapitaLand and Sembcorp Industries (Sembcorp) have signed a Memorandum of Understanding (MOU) to jointly study the use of integrated energy solutions to power data centres. CapitaLand's data centre is the first to pilot in Singapore under SP's Energy Partnership Programme.

What is the Singapore Integrated Transport & Energy model (Sitem)?

EMA and agencies such as A*STAR's IHPC, S&TPPO, and TUMCREATE, have developed the Singapore Integrated Transport and Energy Model (SITEM) to model the impact of additional Electric Vehicle (EV) demand on the grid and identify necessary infrastructure upgrades under different scenarios.

What is integrated energy storage system?

An integrated energy storage system, comprises of Smart Battery Arrays, Sensors and AI programming, allows for the optimum usage and storage of energy base on unique site usage. EagleRE O&M team serves as the trusted partner for all the operational and maintenance needs for our clients Solar and Wind farm.

Will Singapore's Energy Grid be future-proofed?

As part of Singapore's energy transition, the Energy Market Authority (EMA), together with industry partners, have embarked on digital projects to future-proof the nation's energy grid infrastructure.

Why should Singapore invest in a grid digital twin?

Through these initiatives, Singapore will have smarter and more efficient ways of monitoring and predicting the health of the nation's grid assets and network. In addition, the Grid Digital Twin allows for a risk-free environment to study and test different scenarios.

Can CapitaLand power other data centres in Singapore?

The study covered under the MOU will initially focus on developing solutions to power CapitaLand's flagship data centre, 9 Tai Seng Drive with green energy. The feasibility study results planned for the second half of 2021, would potentially be applicable to benefit other data centres in Singapore.

EagleRE Group adopts multi-faceted investment strategy, covering medical fund, energy fund, AI and other fields, and also has reached friendly cooperative strategic investment relationship with many world-class energy groups.

Vietnam - Singapore Smart Energy Solutions JSC (VSSSES) is an investor and developer in the rooftop solar sector. We provide rooftop solar solutions to Commercial and Industrial (C& I) customers across Vietnam. We are proud to be the vanguard of new developments and technological advancements in sustainable energy.
