The Republic of the Marshall Islands (RMI) is one of the world's lowest-lying and climate vulnerable countries. It is a coral atoll nation comprising 1,156 individual islands/islets and 29 different atolls with an average elevation of just six feet above sea level, dispersed across nearly two million square kilometers of the Pacific Ocean.

Analysis of SOE performance across nine countries, including six from the Pacific--Fiji, the Marshall Islands, Papua New Guinea, Samoa, Solomon Islands, and Tonga--shows that while some countries have been able to make great gains, others have struggled to enact reform.

The Hunley crew signaled Battery Marshall that their mission was successful, but the submarine sank. The
