This is a very simple YES. A 100w solar panel can charge a 100ah battery, it could even charge a 1000ah battery, it just takes a proportionately longer time. The fact your 40ah battery is fully charged by 10am tells us that you're not using much power overnight. So a 100ah battery would also be charged by 10am each day with the same use.
