

Solar panel combo price Aruba

How many solar panels has Mister Green installed in Aruba?

We have installed over 10,000 solar panels in Aruba since Mister Green was founded in 2016. We are proud to be the only company in Aruba that is fully focused on our customers keeping these two things in mind: How can you start saving money as soon as possible? How can we make the transition to sustainable energy, as easy as possible?

Can I get a solar loan on Aruba?

Many banks already offer so-called "green loans", financing the purchase of your solar system on Aruba for a monthly installment that may be even lower than the monthly price you pay for electricity now. Even if the calculation below is as up to date as possible, it is still an indication.

How much money can I save with a solar panel installation?

The money you save with your new solar panel installation is comparable to the monthly amount you pay to Mister Green. Your current financial situation does not change! The solar panel system is completely paid off within 3 to 4 years. You will save money on your electricity bill for at least another 15 years.

Today's premium monocrystalline solar panels typically cost between \$1 and \$1.50 per Watt, putting the price of a single 400-watt solar panel between \$400 and \$600, depending on how you buy it. Less efficient polycrystalline panels ...
