

# Solar power generation system export certificate

Do generators need a SEG tariff?

All generators who wish to receive payment for the electricity which they export back to the National Grid will need to apply to a SEG licensee (an electricity supplier which offers a SEG tariff). SEG licensees must offer a SEG tariff to all eligible generators.

What is the Smart Export Guarantee (SEG)?

Under the Smart Export Guarantee (SEG) you will be paid for every unit of electricity that you feed back. You won't be paid for any that you use yourself. You need to have a renewable electricity generating system that meets the SEG eligibility requirements. You must have a meter capable of providing half-hourly export readings.

What is Smart Export Guarantee & export tariff?

Smart Export Guarantee and export tariff - what is it all about? EDF Energy is a Mandatory SEG Licensee. The Smart Export Guarantee (SEG) is a licensee requirement to offer an export tariff to eligible generators.
