How much does it cost to connect a solar power system?

Lines company charges - Some local lines companies don't charge to connect a solar power system to the grid, while others will charge a fee between \$100 and \$200 for administration fees to accept your solar power system's export of excess power into the grid. Find out every lines company solar fees here.

Do you have a warranty on your solar power system?

Because we partner with trusted suppliers and use only the best solar electrical products, we give you industry leading warranties on every system we install. Our product warranties can be up to 25 years, so you can enjoy peace of mind that your solar power system will last.

Is Harrison's a good solar company?

Harrison's offer a good solar product, but what really sets them apart, especially their Taranaki branch, is the incredible customer service. I don't typically write reviews but this seems warranted. Harrison's offer a good solar product, but what really sets them apart, especially their Taranaki branch, is the incredible customer service.

About Solar Electric Systems . Solar electric systems steadily grow in numbers as a power-supply method of choice in New Zealand, year by year. Photovoltaic modules, also known as solar electric modules, belong to the most energy-efficient systems available, using a free and sustainable source - sunlight - to convert it to electricity.

During a 25-year lifetime of a solar power system, you could expect to replace the inverter at least once. 4. Initial Investment (The cost of the solar power system installed) The price you pay for a solar power system will affect the ROI and payback period for a solar power system investment.
