

Southern Energy Storage Enterprise

What is SSE Renewables?

SSE Renewables provides the energy needed today and is building a better world of energy for tomorrow through the world class operation, development and construction of renewable energy assets.

Where is SSE Renewables delivering its second battery energy storage system?

SSE Renewables has taken a Final Investment Decision to proceed with, and entered into contracts to deliver, its second battery energy storage system (BESS). The 150MW project is located at the site of SSE's former Ferrybridge coal-fired power station in West Yorkshire, England.

Does SSE Renewables have a battery & solar project?

SSE Renewables has almost 2GW of battery and solar projects currently in development or under construction. These technologies are key to helping SSE deliver on its Net Zero Acceleration Programme to provide the green energy we need to decarbonise. By building out more battery storage, we can get more renewable power onto the Grid.

What is SSE thermal?

One of our core strategic aims is to embrace an innovative and inclusive culture to build talented and high-performing teams. SSE Thermal's vision is to become the leading provider of flexible thermal energy in a net zero world. Copyright SSE © 2024.

Will SSE build a new battery storage project at Ferrybridge?

For decades the Ferrybridge coal-fired power station was a prominent feature of the West Yorkshire landscape, before being decommissioned by SSE in 2016. Now SSE Renewables' plans to build a new 150MW battery storage project at Ferrybridge will provide flexible generation for Britain's national grid and a new era for the site.

What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead.

On January 30, 2023, the U.S. Department of Energy's (DOE) Office of Fossil Energy and Carbon Management (FECM) announced \$93 million in 11 projects awarded under the "CarbonSAFE: ...

In SSE Thermal, our vision is to become the leading provider of flexible thermal energy in a net zero world. To achieve this, we are working on cutting-edge carbon capture and hydrogen solutions across the UK.

11 CIGRE Southern Africa Regional Conference CSIR International Convention Centre Pretoria, South Africa
