

Is Bosnia and Herzegovina a good country for solar energy?

With around 60% of the land area, Bosnia and Herzegovina could have between 1.2 and 1.4 MWh/kWp of photovoltaic capacity compared to the world's solar potential. Compared to B&H and other Balkan countries, Serbia has a great potential for the implementation of solar energy.

Can solar power plants be used in Bosnia & Herzegovina?

From all Balkan countries, it was found that Bosnia and Herzegovina has one of the largest potentials for the implementation of solar power plants. It was estimated that energy produced from solar power plants could be 70.5 × 10⁶ GWh/year and the most suitable area is Herzegovina.

What is the potential for bioenergy in Bosnia & Herzegovina?

Concerning bioenergy, the greatest potential lies in wood residues, since forests are one of the main natural resources of Bosnia and Herzegovina. There are currently two biogas power plants, but there is no available data about biofuel and other biowaste utilization. 1. Introduction

How many wind farms are there in Bosnia & Herzegovina?

In total, there are seven current and planned wind farms with an annual production of 936.17 GWh. From all Balkan countries, it was found that Bosnia and Herzegovina has one of the largest potentials for the implementation of solar power plants.

Does Bosnia and Herzegovina have a potential for geothermal energy?

Immense potential also lies in Bosnia and Herzegovina's geothermal energy, however without significant interest of authorities in the development due to initial investments in geothermal heating, which are significantly higher compared to other conventional heating systems.

What is the potential for hydropower in Bosnia & Herzegovina?

The potential for hydropower in Bosnia and Herzegovina, following the level of present technical capabilities for their utilization, amounts to about 22.050 GWh [22]. Fig. 4 shows the hydro prospects of B&H according to Geki? et al. [7].

Bosnian pyramids, near the Visoko city, Bosnia and Herzegovina. The Bosnia Sun Pyramid is not alone; it is part of a larger pyramid complex that includes four other pyramids, a megalithic site, and an underground labyrinth of tunnels. ... It is also unique because of its alignment with the sun during the summer solstice and the energy beam that ...

BOSNIA and HERZEGOVINA (Update November 2020) The Directive 2010/31/EU on the energy performance of buildings 1. ... FBiH: Article 33 of the Law on Energy Efficiency of the Federation of Bosnia and Herzegovina (Official Gazette of FBiH no. 22/17), RS: Article 90 (2f) of the Law on Spatial Planning and
