Who is SunSmart energy?

At SunSmart Energy, we're your all-in-one destination for leading solar and backup solutions. We offer a diverse range of tried-and-tested products trusted worldwide. Invest in energy-efficient technologies that can reduce energy consumption and save money on energy bills.

What is a SunSmart solar generator?

The SunSmart solar generator system is a revolutionary approach to solar power- without the downsides of fossil fuels, banks of storage batteries, and daylight-only functionality. Through new innovations in magnetic storage, SunSmart delivers uninterrupted power where and when it's needed most.

What is a SunSmart solar power system?

The SunSmart solar power system is a response to the growing demand for and use of electric vehicles (EVs). It was initially conceived as a way to address the energy needs of EVs, as traditional internal combustion engine (ICE) vehicles are a leading cause of pollution and global climate change.

What is SunSmart and how does it work?

Through new innovations in magnetic storage, SunSmart delivers uninterrupted power where and when it's needed most. SunSmart is an affordable alternative power solution, at a fraction of the cost of rooftop solar panels. If you have an electric vehicle (EV), charging it won't run up your electric bill.
