This brilliant lantern shines up to 40X brighter than kerosene lamps - at 400 lumens - and packs high charging capacity for mobile devices, all thanks to its large battery, large solar panel and efficient LEDs.

solar energy storage system or solar battery storage, is a device that stores excess electricity generated by solar panels for later use. Solar panels produce electricity from sunlight, but the energy production is not constant throughout the day and may not always match the energy consumption patterns of a household or business.

Without a good solar battery system, including a solar battery bank and a solar battery charger, low solar panel absorption can have your system running low on electricity. Solar batteries for home -- and even for commercial and industrial uses -- should be a priority buy.

Light multiple rooms, charge your phones, and power compatible TVs, radios, and fans with Sun King's ultra-affordable solar home systems. Bright Lighting and Phone Charging for Homes or Businesses With No
