17 interconnected and ambitious Goals which address the major development challenges faced by people in Sudan and around the world. The United Nations Development Assistance Framework (UNDAF) is the plan for the United Nations Country Team ...

A leader in sustainable energy, Vestas designs, manufactures, installs and service wind energy and hybrid projects that have already prevented 1.9bn tonnes of CO₂ being emitted into the atmosphere and contributed to a more sustainable energy system, playing a crucial role in laying the foundations for the sustainable era. 4. NextEra Energy

More renewable energy. For sustainable energy companies like Ørsted, that means increasing supply, through an accelerated build-out of green energy solutions like wind and solar power, and Power-to-X technologies. As the global leader in offshore wind, we're pioneering new renewable energy solutions in different locations around the world.

Evaluating the wind resources in Sudan is of paramount importance for advancing wind power projects. This assessment constitutes a crucial step in enhancing energy security, alleviating environmental issues, and effectively addressing the prevailing electricity crisis. However, due to the lack of meteorological data including wind speed, gridded satellite ...

This move shows current energy trends aimed at both ecological preservation and leveraging oil and gas resources to meet energy demand and energy security. South Sudan possesses an estimated 3.5 ...

Researchers, businesses, and policymakers in Sudan can explore and usefully improve energy systems and energy consumption behavior, both to reflect the reality of climate change and ...

Speaking today at the virtual launch of a UNDP report, Empowering Sudan: Renewable energy addressing poverty & development, the Acting Minister highlighted the report's suggested policies and actions, which ...

A leader in sustainable energy, Vestas designs, manufactures, installs and service wind energy and hybrid projects that have already prevented 1.9bn tonnes of CO₂ being emitted into the atmosphere and contributed to a ...

The United Nations Development Programme has released a roadmap to unlock the potential of Sudan's renewable energy and expand energy access. The roadmap, entitled Empowering Sudan: Renewable energy ...
