The short-term outlook is positive, with GDP growth projected at 5.5% in 2018 and 5.8% in 2019, fuelled by investment in infrastructure

São Tomé and Príncipe is very open and highly depends on imports resulting in high indirect tax revenue. At the same time, the production and export base are very narrow, leaving the authorities with a small domestic tax base. For these reasons, the country compares unfavorably with neighboring economies and other island countries, in terms of domestic ...

São Tomé and Príncipe is an island nation off the coast of Gabon in West Africa, the smallest African country after the Seychelles. It gained independence from Portugal in 1975, although economic independence is still a long way off given the high rates of poverty that rank it among the world"s poorest countries.
