

Tax rate for imported photovoltaic brackets in the United States

What are solar panel import tariffs?

Solar panel import tariffs are primarily intended to support the development of a new U.S.-based solar module manufacturing supply chain, which is financially backed by the Inflation Reduction Act. This act introduces a series of tax credits designed to bolster domestic manufacturers. For solar modules, the credits are as follows:

Where do US solar equipment imports come from?

Since the imposition of the Obama-era tariffs, the share of US solar equipment imports directly from China has been almost completely phased out, with imports shifting to Southeast Asia. The recent DOC decision would expand these AD/CVD tariffs to cover imports from certain companies in Cambodia, Malaysia, Thailand, and Vietnam.

What if China imposes new solar tariffs on imports from Southeast Asia?

When the presidential moratorium on new solar tariffs on imports from Southeast Asia expires next June, imports of solar cells and modules from these five companies will be subject to the tariffs faced by Chinese solar manufacturers, with the tariff level ranging from 50 percent to 250 percent of the import value.

How much would a solar cell cost if imported from China?

If one were to import solar cells from China today, they would cost a few cents to a nickel per watt. With this increase from 25% to 50% - a solar cell priced at five cents per watt would see its tariff increase from \$0.0125/Wdc to \$0.025/Wdc.

How much will a tariff on solar cells increase in 2024b?

The tariff on solar cells has risen from 25% to 50%, and battery cells have seen increases up to 25%. Today, importing solar cells from China, which cost between a few cents to a nickel per watt, would see a tariff increase from \$0.0125/Wdc to \$0.025/Wdc with this hike. 2024b - Pending Investigation

What tariffs did Trump impose on solar panels?

Following lawsuits by Suniva, the Trump administration implemented two additional tariffs: Section 201 & Section 301, applying to solar modules and hundreds of other items, respectively. The Section 201 tariff imposed a 30% import tariff on all solar modules from all countries, decreasing 5% annually until its scheduled end.
