

Thailand corvus energy as

Where is Corvus Energy located?

The head office was moved to Norway in 2018. Corvus Energy offers Energy Storage Systems (ESS) suitable for various vessel types, providing energy storage in the form of modular lithium-ion battery systems. The battery systems provide power to hybrid and all-electric heavy industrial equipment, including large marine propulsion drives.

What types of energy systems does Corvus Energy offer?

Corvus Energy offers a full portfolio of energy storage and fuel cell systems, suitable for almost every vessel type, providing power systems in the form of modular lithium-ion battery systems and Hydrogen PEM fuel cell systems. Corvus Energy has unsurpassed experience from more than 1000 projects.

What is Corvus Energy ESS?

Corvus Energy offers a full portfolio of ESS suitable for almost every vessel type, providing high-power energy storage in the form of modular lithium-ion battery systems. The purpose-built, field-proven battery systems provide sustained power to hybrid and all-electric heavy industrial equipment, including large marine propulsion drives.

When will Corvus ESS battery systems be available?

The battery systems are scheduled for delivery end of 2024 and the vessel will enter operation in 2025. About Corvus Energy Corvus Energy is the leading supplier of energy storage systems (ESS) for maritime, offshore, subsea and port applications.

Why did Toyota invest in Corvus Energy?

This investment will provide Corvus with even fuller access to Toyota's cutting-edge expertise in both fuel cells and battery technology, strengthening Corvus's ability to bring innovations to a rapidly evolving industry. Corvus Energy is the leading supplier of zero-emission solutions for maritime, offshore and port applications.

How has Corvus Energy changed the world?

Corvus Energy systems have helped significantly reduce fossil fuel consumption and CO₂ /GHG emissions, providing operators with impressive ROI along with global recognition for clean energy leadership. Follow Corvus Energy as we accelerate the shift to environmentally sustainable energy solutions by delivering large-scale energy storage.

26 years experience developing leading edge technology in the alternate energy sector. Assess, propose and bridge high tech concepts through to commercialized production by identifying and targeting innovative real world, cost effective design solutions.
