Why is Thailand a good location for solar energy?

Thailand enjoys a generous amount of sunlight throughout the year, with an average solar irradiance that creates a fertile ground for solar energy production. This geographical advantage positions Thailand as a prime location for solar installations, capable of generating substantial amounts of clean energy. 2. Governmental Endorsement and Schemes

What types of solar solutions do you offer in Ko Samui?

We specialise in all types of solar solutions for private residences, and commercial buildings. Our 1st job in Ko Samui for a 10 kW hybrid system. We all know that solar energy is a clean, inexpensive energy solution. Here in Thailand the electric costs are high per unit, and due to the heat and humidity the bills in summer can be high.

The projects are part of Thailand's ambitious renewable energy feed-in-tariff programme, aimed at doubling its installed wind and solar capacity by 2030 and progressing the country towards its renewable energy targets. The move aligns with Thailand's goal to boost its renewable energy output to 50% by 2037.
