Greenex Energy DMCC is your expert in bridging geographical distances and provides the operations linked to successful base oil trading.

Does Togo have a competitive electricity market?

The electricity company of Togo remains the sole entity that can market the electricity generated and there is no competition in electricity markets that will create more competitive markets and reduce the price per unit.

Where does Togo get its energy from?

To meet demand, Togo has to import most of its energy from Ghana, Cote D'Ivoire and Nigeria. The country's main source of energy is biomass. About 76% comes from firewood, charcoal and vegetable waste. Petroleum products account for just over a quarter of energy needs, while electricity derived from thermal, hydropower and solar accounts for 4%.

What will be a new power plant in Togo?

Another addition will be the planned coal-fired thermal power plant, the international and regional connection program with 2 transmission lines of 330 KV and 4 transmission lines of 161 KV, the construction of a 10 MW solar plant in Mango, and 5 MW in Kara (Togo PND 2018).

EVER GREENEX ENERGY LIMITED was founded in particular to respond to contemporary energy concerns in the Region but beyond that, take the initiative in pioneering the inevitable energy transition that must now become the focus as we set to flip the current energy structure that is fossil fuel based, to the next age sources that are renewables-based.

GREENEX ENERGY (Pty) Ltd was formed with the objective to participate and take a leading role in the energy market as an independent Power producer (IPP) to generate and sell electricity in Southern Africa. Our main product is electricity supply to the regional market.
