

Trinidad and Tobago storemasta battery cabinet

What are storemasta battery storage cabinets?

Storemasta Battery Storage Cabinets provide a fast and cost-effective solution to mitigate the risks associated with lithium-ion batteries. These Australian made Battery Storage Cabinets are specifically designed to store Li-ion batteries in a cool, dry, and secure environment, significantly reducing the potential for battery fires.

Does storemasta store lithium batteries?

Storemasta's lithium-ion battery charging and storage cabinets provide a cool, dry and secure space for batteries to be housed and recharged. Is it OK to store lithium batteries fully charged? Lithium-ion battery charging cabinets are designed for both the charging and the storage of li-ion cells.

Are storemasta lithium-ion battery cabinets electrically certified?

Each of our STOREMASTA lithium-ion battery cabinets is electrically certified, with IP54 rated fittings and a 10AMP power inlet. Featuring 8 outlets, 2 adjustable pole power points and 2 adjustable, perforated shelves, this cabinet provides a convenient and flexible way to charge and store your Li-ion batteries.

How many lithium ion batteries can a storemasta Battery Cabinet charge?

A Storemasta lithium-ion battery cabinet can simultaneously charge multiple workplace batteries in a safe and protected environment. Storemasta offers an 8 and 18 outlet model of battery cabinet, which allows the user to charge up to 8 or 18 li-ion batteries - depending on the chosen model.

Do storemasta battery cabinets have a fire suppression system?

For added peace of mind, Storemasta Battery Cabinets can be equipped with optional fire suppression systems to further safeguard your batteries and facility. Available in a range of sizes from 15L to 250L, we offer a Battery Storage Cabinet to suit your operational needs.

Create a regular inspection and maintenance schedule to ensure your cabinet stays compliant. Make sure that any chemical leaks or spills within the cabinet are cleaned up immediately. If any dangerous goods spill into the sump of the cabinet, the floor of the cabinet must be removed, so the sump can be cleaned out immediately.

Our 18 outlet battery charging cabinet is an innovative storage solution for workplaces that rely on lithium-ion batteries. Specifically designed to keep Li-ion batteries in a cool, dry and secure environment, the battery cabinet is equipped with a 150mm fan, liquid-tight spill containment sump, and double-walled sheet steel construction with 40mm thermal air barrier.

“The cabinet gives us the ability to leave them on charge overnight. The cabinet's built-in ventilation system ensures that the batteries do not overheat while charging.” Safe Charging. In addition to the
