

Tunisia sfc energy

How much electricity does Tunisia get from renewable sources?

Tunisia aims to generate 30% of its electricity from renewable sources by 2030. The country currently gets only 3% to 6% of its electricity from renewable sources, mostly from wind and hydro. Solar energy capacity is at 35 megawatts (MW). In addition to wind and hydro, the Tunisian government plans to use biogas to produce renewable energy.

How will Tunisia's Green Energy Initiative change the world?

This initiative is set to revolutionise the nation's energy scene by cutting power generation costs, significantly trimming greenhouse gas emissions by over 90,000 tons annually, and bolstering Tunisia's green transition. The partners signed project launch papers on Tuesday 26 September, at the government headquarters in Al Qasba, Tunis.

What is the energy sector in Tunisia?

The energy sector in Tunisia includes all production, processing and transit of energy consumption in this country. The production involves the upstream sector that includes general oil and gas, the downstream sector that includes the only refinery in Tunisia and most of the production of natural gas, and varied electrical/renewable energies.

Does Tunisia have a solar power plant?

First utility-scale photovoltaic plant (10 MW, in Tozeur) was commissioned in 2019 on German money. Tunisia aims to generate 30% of its electricity from renewable sources by 2030. The country currently gets only 3% to 6% of its electricity from renewable sources, mostly from wind and hydro. Solar energy capacity is at 35 megawatts (MW).

Does Tunisia have a green wave of energy production?

This creates the overlap for biogas to take on some level of energy production in Tunisia's continued green wave of energy production. In 2016, Tunisia emitted 29 Mega tons of carbon dioxide equivalent (MtCO₂e) in greenhouse gasses. The country aims to reduce its carbon intensity by 13% in 2030, compared to 2010 levels.

How will a solar plant in Tunisia benefit from debt financing?

The 100-megawatt, \$86 million solar plant located in Tunisia's Kairouan governorate will benefit from up to \$26 million in debt financing from the African Development Bank, including \$13 million sourced from SEFA, a multi-donor fund that provides finance to unlock private sector investments in renewable energy and energy efficiency.
