Does SseedStudio separately sell the "Waterproof Silicone Plug" that blocks the N-type hole for the SenseCAP Outdoor Enclosure? Alternatively, does anyone know the part number of this component? I'm using this case for a different purpose and need to block off the third N-type hole.

The gateway is housed in a robust, waterproof IP66 enclosure, making it suitable for industrial applications in outdoor severe environments. About SenseCAP SenseCAP is an industrial wireless sensor network that integrates easy-to-deploy hardware and data API services, enabling low-power, long-distance environmental

data collection.

6 Steps to Assemble the SenseCAP Outdoor Enclosure. Step 1: Connect the Cable Glands and Silicone Plugs (2:57-4:57) Step 2: SenseCAP M1 and PoE Assembly (4:58-7:50) Step 3: Mounting Sheet Plane Assembly (7:51 ...

Ffs man, buy a NEMA rated enclosure on Amazon with a cable gland assortment. Drill the holes in the bottom of the enclosure for the cable glands and run the cables in through there. Those holes in the side will allow condensation to escape but a strong rain/wind will blow moisture in and sit on the bottom of that lid.
