Why did Super Energy Invest in Vietnam?

In 2017, Super Energy Corporation expanded its investment in Vietnam's green energy industry, namely, wind power and solar power, with the aim of dominating the domestic renewable energy market and becoming the leading manufacturer in ASEAN, while pursuing sustainable development, and guaranteeing a clean and green environment.

What is Super Energy Corporation?

It will be distributed under a power purchase agreement with state-owned utility Vietnam Electricity (EVN) from June 2019. Super Energy Corporation has two main business units -- IT and production and distribution of renewables electricity. The company is active in the solar, wind and waste-to-energy sectors.

Will super energy invest 750 MW in Vietnam?

Featured Image: worradirek/Shutterstock.com Thailand-based Super Energy Corporation's (BKK: SUPER) board of directors has given its nod to a plan entailing investment in 750 MW of solar projects in Vietnam. The value of the proposed investment will not exceed USD 456.7 million (EUR 414.2m), the energy group said in a bourse filing last week.
