

WeCo 4k5 ultra Ivory Coast

What is the capacity of a WECO battery module?

WeCo battery modules have a capacity of 5.3 kWh and are stackable up to a cluster of 5 (LV) or 8 (HV) modules with a capacity of 22 kWh and 41 kWh respectively. These clusters can be reconnected in parallel for higher capacities, with the additional option of expanding the container size up to a capacity of 2.7 MWh.

What is a WECO battery?

WeCo is an Italy-based company that design and produce lithium batteries equipped with the highest quality components. WeCo battery modules have a capacity of 5.3 kWh and are stackable up to a cluster of 5 (LV) or 8 (HV) modules with a capacity of 22 kWh and 41 kWh respectively.

What is WECO BMS & LV/HV?

In addition, WeCo has developed one of the most advanced BMS (Battery management system) with active and passive equalizer with real-time control in each cell. Energy storage system for self-consumption or autonomous systems. 5K3 LV/HV.

Can I copy a WECO datasheet?

We recommend contacting WeCo for the most up-to-date datasheet, read warranty and manual before making any purchasing decisions. No part of this document can be copied or reproduced without WeCo written permission. All data is subject to change without prior notice. Images herein are for demonstration only and may not reflect final product outlook.

Can I copy a WECO logo?

Images herein are for demonstration only and may not reflect final product outlook. Confirm current data with WeCo before purchase. Unauthorized use, copying, or reproduction of design, logo, or content is prohibited. WeCo is a registered brand of WeCo Srl Italia.
