

Xidi Fengye Power Station

How big is China's Fengning pumped storage power station?

China has set a new global benchmark in the global hydropower sector with the completion of the Fengning Pumped Storage Power Station, the largest of its kind in the world. Located in Hebei province, this cutting-edge facility has a total installed capacity of 3.6 GW and is operated by the State Grid Corporation of China (SGCC).

Is China's Fengning power station the world's largest hydro power plant?

China has set a new global benchmark in the global hydropower sector with the completion of the Fengning Pumped Storage Power Station, the largest of its kind in the world. China's Fengning Station: World's Largest Pumped Hydro Power Plant Sets New Global Benchmark

Where is Fengning pumped storage power station located?

The Fengning pumped storage hydropower plant in Hebei province (courtesy: State Grid Corporation of China) China has set a new global benchmark in the global hydropower sector with the completion of the Fengning Pumped Storage Power Station, the largest of its kind in the world.

Does Fengning pumped storage power station fit the goal?

The Fengning pumped storage power station fits the goal. China is putting efforts to expand its pumped hydro energy storage over the next decade, aiming to have 62 gigawatts of storage facilities operating by 2025, and 120 gigawatts by 2030, according to a plan published by the National Energy Administration in September.

When was Fengning power station built?

Construction of the Fengning station began in June 2013, with the Gezhouba Group securing the main contract to build the power station in April 2014. The project was constructed in two phases, each involving six 300 MW reversible pump-turbine units, together delivering the full 3.6 GW of installed capacity.

How many kilowatts is Sichuan pumped power station?

The station is designed with a total installed capacity of 2.1 million kilowatts and an annual power generation of 2.994 billion kilowatt-hours. It is the largest pumped storage project in Sichuan and a landmark project as part of the integrated development of water and scenic resources in the Yalong River basin, according to the company.
